

Content Outline

Nina Lawrence

Interaction Foundations SP2022

I would like to make my microsite about the Brothers' Grimm. The content will follow this order:

- **Page One (Homepage):** this will discuss who the brothers were and why they became so famous. It will summarize some of their more popular publishings. The homepage should make it clear that while this site will discuss the brothers' works, it first must talk about the people behind the stories first.
- **Page Two (Early Lives):** their upbringing is crucial to how they came to be, so this page will discuss their lives as children, up until they attend college to study medieval German lit.
- **Page Three (Adult Lives):** this section will discuss how they applied their college learnings to publish books and fund their research, up until they were fired from their jobs as professors in university, and through their deaths. This will likely be the longest page.
- **Page Four (Popular Tales):** I'd like the final page to go into depth about their most popular written works. I am most interested in talking about Sleeping Beauty, Hansel and Gretel, and Snow White. This page might analyze the themes of the work and what they mean instead of just summarizing them.
- **Page Five (Sources):** this page will list all my sources.
